

NJAES RESEARCH ENDORSEMENT FORM

Project: Hatch McIntire-Stennis Multistate Animal Health **Proposed Duration:** Years

Project Title:

Project Director Name:

PD Department:

PD Estimated Yearly Effort. Estimate to the nearest 5% and If you have competitive funding that aligns with your capacity funding, you may include that effort:

Yr 1%	Yr 2%	Yr 3%	Yr 4%	Yr 5%

AES-supported Co-Director(s), Related Department(s), Estimated Yearly Effort:

Name	Department	Yr 1%	Yr 2%	Yr 3%	Yr 4%	Yr 5%

Hatch/McIntire-Stennis/Animal Health ONLY: Information of (outside of Rutgers) qualified to review the proposal:

Name	Affiliation	Email

Special Reviews (If Yes to any of the questions, provide applicable information on the next page)

A) Human Subjects ----- Yes No

If you are not certain consult the [Office of Research & Regulatory Affairs website](#)

B) Animal Use ----- Yes No

For questions regarding Animal Use in research, consult the [ORRA website](#)

C) Recombinant DNA, bacteria, viruses, transgenic animals, transgenic plants, biological toxins -- Yes No

D) Radioactive Materials----- Yes No

If you, your research staff and students have not completed the required education in Responsible Conduct of Research (RCR), [please consult this Rutgers webpage](#). You can take a test in the CITI system to meet this requirement

ENDORSEMENT OF PROJECT DIRECTOR

By signing below, it certifies my understanding and agreement agree to abide by current NJAES and NIFA research compliance policies. I certify that the required actions regarding compliance with these policies have been taken.

Project Director

Date

ENDORSEMENT OF DEPARTMENT CHAIRPERSON

This proposal has been evaluated by me or by a departmental committee. This project will address an important area of research and is appropriate to the research programs of the department. The project director will have a reasonable amount of time to devote to this project.

Department Chairperson

Date

NJAES RESEARCH ENDORSEMENT FORM

HUMAN SUBJECTS COMPLIANCE

1. Are all elements of the research involving human participants conducted by the project director or their research team, whether at Rutgers or elsewhere, approved within the scope of an approved Rutgers IRB protocol?

Please note: Whether a project is deemed Exempt from Federal Regulations and the appropriate exemption number must be decided by the Office of Research & Regulatory Affairs, not the Project Director

Yes

Protocol #(s)

Approval Date(s)

Expiration Date(s)

No *NOTE: If your research contains IRB compliance, USDA-NIFA now requires approved protocols before they will approve the project. Please begin applying while your project is being reviewed if you haven't already.*

ANIMAL WELFARE COMPLIANCE

1. Are all elements of the live vertebrate animal work that are conducted by the project director or their research team, whether at Rutgers or elsewhere, approved within the scope of an approved Rutgers IACUC protocol?

Yes Protocol #(s)

Approval Date(s)

Expiration date(s)

No *NOTE: If your research contains IACUC compliance, USDA-NIFA now requires approved protocols before they will approve the project. Please begin applying while your project is being reviewed if you haven't already.*

RECOMBINANT DNA, BACTERIA, VIRUSES, TRANSGENIC ANIMALS, TRANSGENIC PLANTS, BIOLOGICAL TOXINS

Are all aspects of any work with biohazardous microorganisms or agents, recombinant DNA molecules, or select agents, approved by the Biosafety Committee?

Yes, list the protocol number, title, and expiration date of the approved Biosafety protocol(s):

No, complete the Biological Safety protocol at <https://ipo.rutgers.edu/rehs/training>

OFFICE OF RESEARCH USE ONLY – DO NOT COMPLETE THIS SECTION
