

NJAES PROPOSED RESEARCH ENDORSEMENT FORM

Project: Hatch McIntire-Stennis Multistate Animal Health

Proposed Duration:

Project Title:

Project Director Name:

Department:

Hatch/McIntire-Stennis/Animal Health ONLY: Names, affiliation & email addresses of at least four people (outside of Rutgers) qualified to review the proposal:

Name	Affiliation	Email

Special Reviews (If Yes to any of the questions, provide the applicable information on the next page)

- A) Human Subjects ----- Yes No
For questions, <https://research.rutgers.edu/researcher-support/research-compliance/human-subjects-protection-program-irbs>
- B) Animal Use ----- Yes No
For questions regarding Animal Use in research, consult the website at <https://orad.rutgers.edu/iacuc>
- C) Recombinant DNA, bacteria, viruses, transgenic animals, transgenic plants, biological toxins -- Yes No
- D) Radioactive Materials----- Yes No

ENDORSEMENT OF DEPARTMENT CHAIRPERSON

This proposal has been evaluated by me or by a departmental research committee. This project will address an important area of research and is appropriate to the research programs of the department. The proposed research is feasible in terms of its request for personnel, space, equipment, and expected operating budget for the duration of the project. The project director will have a reasonable amount of time to devote to this project.

Department Chairperson

Date

OFFICE OF RESEARCH USE ONLY – DO NOT COMPLETE THIS SECTION					
Date Sent	Reviewer Name	Date Due	Reminder	Response	Notes

HUMAN SUBJECTS COMPLIANCE

1. Are all elements of the research involving human participants conducted by the project director or their research team, whether at Rutgers or elsewhere, approved within the scope of an approved Rutgers protocol?

Please note: Whether a project is deemed Exempt from Federal Regulations and the appropriate exemption number must be decided by Rutgers Compliance, not the Project Director

Yes	Protocol #(s)	Approval Date(s)	Expiration Date(s)
-----	---------------	------------------	--------------------

List the title of the applicable protocol(s):

No, but an amendment has recently been filed on existing protocol number: _____

No, but a protocol will be submitted in accordance with the protocol submission schedule.

ANIMAL WELFARE COMPLIANCE

1. Are all elements of the live vertebrate animal work that are conducted by the project director or their research team, whether at Rutgers or elsewhere, approved within the scope of an approved Rutgers protocol?

Yes	Protocol #(s)	Approval Date(s)	Expiration date(s)
-----	---------------	------------------	--------------------

List the title of the applicable protocol(s):

No, but an amendment has recently been filed on existing animal protocol number: _____

No, but a protocol will be submitted in accordance with the protocol submission schedule.

RECOMBINANT DNA, BACTERIA, VIRUSES, TRANSGENIC ANIMALS, TRANSGENIC PLANTS, BIOLOGICAL TOXINS

Are all aspects of any work with biohazardous microorganisms or agents, recombinant DNA molecules, or select agents, approved by the Biosafety Committee?

Yes, list the protocol number, title, and expiration date of the approved Biosafety protocol(s):

No, complete the Biological Safety protocol at <http://myrehs.rutgers.edu>
